

KOENIG & BAUER

KBA-Sheetfed Solutions

Experience the packaging solutions!

Ready for the next step. The **Rapida RDC 106** rotary die-cutter offers die-cutting technology geared to greater diversity and cost-aware finishing in the packaging sector: With a multitude of configuration variants and options always the ideal solution for your needs. Take the next step!

koenig-bauer.com/rdc

Processes

Creasing / Embossing

Stripping

Die-cutting / Scoring

Advantages

High production speeds for maximum output

Reduced space requirement for storage of the die-cutting formes

High-precision setting of the die-cutting pressure in 1µm steps, separately for each side

Significantly enhanced efficiency also for short runs

Maximum sheet format 780 x 1.060 mm

High substrate flexibility thanks to a modern sheet guiding concept

we're on it.
